Rhyme-Finder, Prefix-Finder, Root-Finder, & Suffix-Finder Bookmarks

Print (preferably on cardstock), laminate and cut out.

Rhyme-Finder Bookmark Instructions:

Write down the word you want rhyme on a separate sheet of paper.

If the word begins with a consonant (or consonant cluster), place the “Rhyme-Finder” bookmark *over* the first letter(s) of the word. For example, if your word is *drum*, place the ruler on top of the “dr.” If your word is *dad*, place your bookmark on top of the “d.”

If the word begins with a vowel, place the “Rhyme-finder” bookmark *in front of* the first letter of the word. For example if your word is *east*, place the ruler *in front of* the “e.”

Then, slide the bookmark to different letters and say the words that are formed by the consonant on the bookmark being added to the ending sounds of the words you wrote down.

Use this tool to target speech sounds in the word final position. Then have students practice at their articulation levels (i.e., word, phrase, sentence).

Prefix-Finder, Root-Finder, & Suffix-Finder Bookmark Instructions:

Write down a word or root or use the root finder bookmark.

Place your pre-fix finder bookmark in front of the word/root or place your suffix finder behind the word/root.

Then slide the bookmarks to different prefixes or suffixes to find additional words that have the same root!

Use these tools to target word initial, medial, or final speech sounds. Then have students practice at their articulation levels (i.e., word, phrase, sentence).

Numi-Finder Bookmark Instructions:

Write down a word that starts with one of the numeric prefixes listed on the numi-finder bookmark. Place the bookmark over that entire prefix. Slide the bookmark up and down to find other words that have the same ending but start with different numeric prefixes (e.g., *bicycle, tricycle, unicycle*).
